## EXPEDITION CONTENT

### STUDENT DEVELOPMENT: OVERLAND TRUCK

Our overland expeditions are specifically designed for student development. On arrival in-country, the Venture Force teams are handed the itinerary & budget and will be expected to manage the expedition themselves. Our leaders and teachers will be on hand to provide support, watching over safety and budget management. Progressively, teams take more and more responsibility for the day to day tasks – learning from both success and failure! Our overland trucks offer the perfect medium for development, taking teams wherever they wish, whenever they wish.

### CHEETAH CONSERVATION PROJECT

Venture Force consider project work an essential component of a well-structured expedition, drawing on the enthusiasm, ingenuity and hard work of the team. The Cheetah has been hunted to near extinction in recent years and the sanctuary provides both protection and re-integration of the Cheetah into the wild but more importantly, the sanctuary provides essential education to those who are persecuting this beautiful creature. Other projects including community projects can be arranged.

### WILDLIFE SAFARI, ETOSHA NATIONAL PARK AND OKAVANGO DELTA

Namibia, Botswana and Zambia are home to many remarkable and rare species. Huge areas of land are set aside as peaceful and protected lands for wild animals. This is a wonderful opportunity for students to see animals in their natural habitat from the safety of our overland truck. Our safari adventures will take us to the Etosha National Park and Okavango delta.

The Okavango Delta is one of the most beautiful areas on our planet. The annual flood creates a stunning green oasis where animals & plants flourish among hundreds of tiny islands. Guided by local experts, the teams will paddle into the delta where they will camp on one of the many small islands. Here they will sample local food and enjoy the opportunity to be involved with the community in music, dancing and foot safaris.

### TREKKING

The Naukluft Mountains provide an excellent opportunity for trekking. Although guided and accompanied by our experienced Venture Force mountain leaders, the teams will navigate through these beautiful mountains, choosing campsites, cooking their meals and planning their route.

### SOSSUSVLEI SAND DUNES

Over many years, the winds from the Southern Atlantic have formed the largest and most beautiful dunes in the world. The teams will get the opportunity to visit and climb these magnificent dunes to experience the sunrise or sunset.
