

CORONAVIRUS (COVID-19) - UPDATE

As you will know the Government is advising against all overseas travel for school groups. We are working with individual schools to re-schedule expeditions. If your expedition is between now and June, you will have received an email from us outlining the current position. Expeditions are being dealt with in date order and for expeditions after June we will be in touch within the next week or two.

These are difficult times for everyone, answers are not readily available but be assured that we are working to minimise the impact and maximise the benefit of any enforced change. We will contact you in due course, thank you for your patience.

Statement date: 16 March 20
