

CORONAVIRUS (COVID-19) - UPDATE

The Government is still advising against all overseas travel for school groups. We are currently working closely with schools and our partners in this sector of the Industry, and where possible are endeavouring to reschedule all summer expeditions.

These are difficult times for everyone, answers are not readily available but be assured that we are working to minimise the impact and maximise the benefit of any enforced change. We will contact you directly with a joint statement from the School or Supporting Organisation and ourselves. Thank you for your patience.

Statement date: 20 April 20
